

EMPLOYMENT OPPORTUNITY WITH BANYAN GOLD: Project Geologist

Banyan Gold Corp. ("Banyan") is a TSX Venture mining company focused on advancing its AurMac Gold Project in the prolific Tombstone Gold Belt district near Mayo, Yukon,. To learn more about Banyan, visit www.banyangold.com.

Job Description

Banyan is looking to hire a Project Geologist at our AurMac Gold property located in Mayo, YT, to join our team to help advance a variety of mineral exploration projects throughout the 2025 field season.

This position will be field based under the Vice President of Exploration, working closely with another Project Geologist. The position is anticipated to start immediately and will continue until approximately early December 2025 with the potential to resume in January 2026. This is a full-time contract position with opportunities for career advancement in a growing company.

This is an exciting opportunity to be a part of our dynamic team focused on discovery with an extensive exploration portfolio and a track record of discovery.

Main Tasks and Responsibilities

- Assisting in day-to-day supervision of core logging and geotechnical staff.
- Assist in progress and cost tracking for exploration programs as needed.
- Reviewing on-site geologic processes and procedures, including but not limited to geologic logging, sampling and cutting, sample shipment chain of custody, and ensuring they meet industry best practices.
- Collection and interpretation of geological data from exploration programs, including diamond drilling, field mapping, surface sampling, and re-logging.
- Preparing reports, technical documentation, and timely project updates.
- Providing recommendations based on geological findings.
- Collaborating with other employees and consultants as necessary.
- Complying with all applicable laws and company policies in the course of their duties.
- Maintain health, safety, and environmental standards.
- Other duties as assigned.

Qualifications and Experience:

- Bachelor's or Master's degree in Geology or Earth Science (3-5 years experience in mineral exploration)
- Experience with working in Yukon and/or drilling/operating in Cold weather
- Experience managing large work programs 3+ drills
- Standard First Aid (asset)
- Proficiency with Microsoft office and geological software is an asset
- Strong organization, planning and time management skills
- Able to manage a busy working environment, and prioritize activities
- Strong Communication and people management skills
- Self-motivated ability to work alone
- Strong analytical and problem-solving skills
- Yukon Supervisors ticket (asset)
- Possess a valid Class 5 driver's license and ability to drive large trucks with trailers.
- Class 1 or Class 3 and Air Brakes endorsement is an asset

Salary: Based on experience

Camp Based: Transportation, room and board provided at no cost

Schedule: 3 Week on site rotations preferred, flexibility on schedule.

How to Apply:

Please submit your resume with the email subject line "Project Geologist" to info@banyangold.com. Thank you to all applicants for their interest and effort in applying for this position. Only candidates selected for interviews will be contacted.
